CAREER SUMMARY

GitHub Campus Expert
@GitHub | University of Benin

OCT 23RD 2020 TO PRESENTLY | EDO STATE, NG

- Building a strong technical community on my campus by organising events, hackathons, workshops, meetups and the likes.
- Creating a community where students can comfortably share their ideas and improve both their tech and soft skills

Internet Security Expert
@Muzzlabs technologies

MAY 2018 TO JUNE 2020 | EDO STATE, NG

- I designed and created software solutions to solve pain points for various clients
- Checked the feasibility of web/software prototypes
- Modified code to fix errors

Cyber-Security Intern
@UNiTes Cisco Networking Academy

SEPT 2020 TO NOV. 2020 | LAGOS STATE, NG (REMOTE)

- Gained simulated experiences in the field of cybersecurity
- I was exposed to various cybersecurity practices
- Built projects related to cybersecurity such as the keyloggers and password list generators

Product Lead
@Muzware Inc.

NOV. 2019 TO PRESENT | EDO STATE, NG

- Develop and implement software and hardware solutions based on both company and client requirements
- Test and refine software prior to roll-out
- Released ad-hoc product patches

Co-Founder
@Illusion Decals

FEB. 2018 TO PRESENT | EDO STATE, NG

- Designs and produces customized gadget skins.
- Effectively makes sure clients desires and needs are met in accordance to preferences

EDUCATION

Bachelor of Engineering in Computer
@University of Benin

2015/2016 TO PRESENT | EDO STATE, NG

- Taking up specialization courses in Computer Architecture, Software Engineering and Embedded Systems to broaden skill set and taking up electives in "Cyber Security".
- Public Relations Officer at ACES(Association of Computer Engineering Students)

Sciences
Senior Secondary School
@Komfota College

FEB. 2012 TO JULY 2014 | LAGOS STATE, NG

- President, Student Council Founder, JETS Club.

Junior Secondary School
Ogunlade College

SEPT. 2009 TO DEC. 2011 | LAGOS, NG

- President, Junior Division JETS Club.

CERTIFICATIONS/ACHIEVEMENTS

- **Winner of the "30-day Microsoft Cloud Skills Challenge"** Designing and Implementing an Azure AI Solution (June 2020)
- First Place WINNER Team **"TEAM ARTI"** at the **"Microsoft Build Cloud Skills Challenge"** (June 2020)
- **GitHub Campus Expert** for the University of Benin (Oct 2020)
- **"Introduction to Cybersecurity Certification"** issued by Cisco Networking Academy
- **"ICSI | Certified Network Security Specialist (CNSS)"** issued by ICSI,UK (International CyberSecurity Institute)

SKILLS

Programming Languages

JavaScript (ES6) ,HTML, CSS/Sass, Python, C++, PHP, VisualBasic

Tools & Platforms(OS)

Git, Bash, JQuery, Gulp, WordPress, MongoDB, Netlify, Heroku, Microsoft Azure, Arduino, MATLAB, MPLAB, Proteus, VsCode, Android, Microsoft Windows, Linux

Frameworks Systems

Bootstrap, React, GatsbyJS, Node.js, Jekyll

Design

Sketch, Canva, Illustrator, Photoshop, After Effects, Pen + Paper, Figma

INTERESTS/HOBBIES

Traveling, Dogs, Reading, Programming, Working with micro-controllers, Embarking on researches, Playing video games, Attending social events

PROJECTS

Visual Impairment Aid
@Muzzware

A device which aims at providing aid to the visually impaired. This project was started with the aim of creating a DIY visual impairment aid that uses haptic and sound feedback. Basically it uses a distance sensor to measure how far objects are from it and then it beeps/vibrates accordingly (when far away it gives slow vibrations/long beep delay and close up it gives fast vibrations/quick beeps)

Passwordlist Generator

A simple python program that takes in a collection of data given to it, then generates possible password combinations that can be gotten from those details that were fed into it

Keylogger

A simply built keylogger created using python on a linux distro(Parrot OS). It wasn't made with the aim of being malicious and it's used to record keystrokes made by users of the pc

Transcript Generator
@University Project

A program designed to generate a .docx file which consists of student's result details, grading and remarks

CGPA Calculator
@University Project

A software designed to calculate the CGPA of Engineering Students in UNIBEN and written in Python.
